We are Simple, Smart Decision Making, Inc. (SSD Global Solutions). Organizations such as Southern California Edison, Tennessee Valley Authority and the Federal Executive Board trust us for design/delivery/facilitation of training programs related to all facets of project management, process improvement and leadership development. Workshops also available in problem-solving and critical thinking. We provide learning opportunities via several methods: individual or team sessions, traditional classroom and/or on-line LIVE (in real time) where students may participate from any computer. We also custom-design courses that may be conveyed in-person, by e-learning or Train-the-Trainer models.
